

**OVERVIEW**

The Metrix\* MX2030 probe series consist of 5mm and 8mm tip diameter probes. The models are available with all standard thread sizes and body configurations required in API 670 Standard. Both probes offer a full 80 mil (2mm) range, and are designed to offer full API 670-compliant performance characteristics when used with a matching MX2031 extension cable and MX2033 driver. MX2030 probes are fully interchangeable with Bently Nevada\*\* (BN) 3300 and 3300 XL 5mm/8mm probes.
